## EDUCATION

### Inderprastha Engineering College (2021-25)

Bachelor of Technology in Computer Science and Engineering (AIML)

Ghaziabad, Uttar Pradesh

(CGPA:6.74)

## EXPERIENCE

### Geographic Information Systems Intern - DronaMaps

- Skills: GIS Systems | Data Annotation | Data Training
- Conducted data annotation and training for over 500 geospatial datasets, ensuring accurate representation and classification within GIS systems.
- Collaborated with a team of data scientists to process and analyse aerial imagery, contributing to the improvement of data models by 15%.

### Operations & Design Lead - Aaradhari Management Services

- Skills: Figma | UI Designing | Content Planning | Team Leadership
- Designed the UI for the company's OTT app, improving user navigation and boosting engagement by 25%.
- Led and trained 3+ teams in Varanasi for VR operations, resulting in the successful execution of 150+ VR shows across Varanasi daily, with a 95% operational efficiency rate.
- Created and curated content for over 100 VR shows across India, enhancing audience experience and engagement.

## PROJECTS

### Flashcard Study App | HTML5, CSS, JavaScript, React.JS, GitHub, Git, VS Code

(2024)

Link: [Flashcard Study App by Krishnansh Sharma](#)

- Developed a React-based flashcard app with localStorage, leading to a 30% increase in user retention for 10+ active users.
- Implemented seamless dark mode functionality, enhancing personalised user experience and contributing to a 25% boost in engagement.
- Optimised data continuity by enabling persistent task tracking across sessions, improving app usability and user satisfaction.

### Heatmap Calendar Integrated To-Do List | HTML5, CSS, JavaScript, GitHub, Git, VS Code

(2024)

Link: [ToDo List with Heatmap Feature](#)

- Built a responsive To-Do List app with a 30-day Heatmap for task tracking, increasing user productivity by 40%.
- Utilised HTML, CSS, and JavaScript to enhance task management and progress visualisation, improving user experience for 50+ users.
- Integrated localStorage to ensure data persistence, leading to a 20% rise in repeat usage.

## TECHNICAL SKILLS

**Designing Tools:** Adobe Photoshop, Canva, Figma

**Technologies:** Java, Python, C, SQL, JavaScript, HTML, CSS, ReactJS, Git, Github, Numpy, Pandas, Jupyter Notebook.

## CERTIFICATION AND ACHIEVEMENTS

- Java Course by Udemy
- Qualified for Smart India Hackathon (2024)
- Completed "Introduction to Career Skills in Software Development" course by LinkedIn

## EXTRA CURRICULAR ACTIVITIES

- **Freelance Voice Over Artist:** Delivered voiceovers for 10+ nationwide projects, reaching over 500,000 viewers with 98% client satisfaction.
- **Acting Lead and Coach at The Craftomaniacs Theater Society, IPEC:** Trained and led a team of 25 actors, improving performance by 30%.
- **Actor for Siksharthakam YouTube Channel (450k+ subscribers):** Featured in videos with over 1 million views, contributing to channel growth.
- **First Place Winner in Inter-College Debate Competition:** Secured 1st position in a college-wide debate competition, enhancing public speaking skills.
